► SPECIALISED MACHINING

Our fully-equipped machine shop means you can get your timber of choice machined to your required profile all in one convenient location. We stock a large range of pre-run standard profiled timber including weatherboards, flooring, panelling, skirting, architrave, mouldings and many others required for construction and finishing both inside and out.

When provided with accurate measurements, detailed drawings and timber samples, we are also able to machine to your unique requirements. Use our online calculator to find the total lineal metres required for your project.
www.halswelltimber.co.nz

- We can provide pre-primed products.
- We can laminate benchtops, stair treads and any other products required.

View our samples in our Showroom at 193 Halswell Road, Christchurch

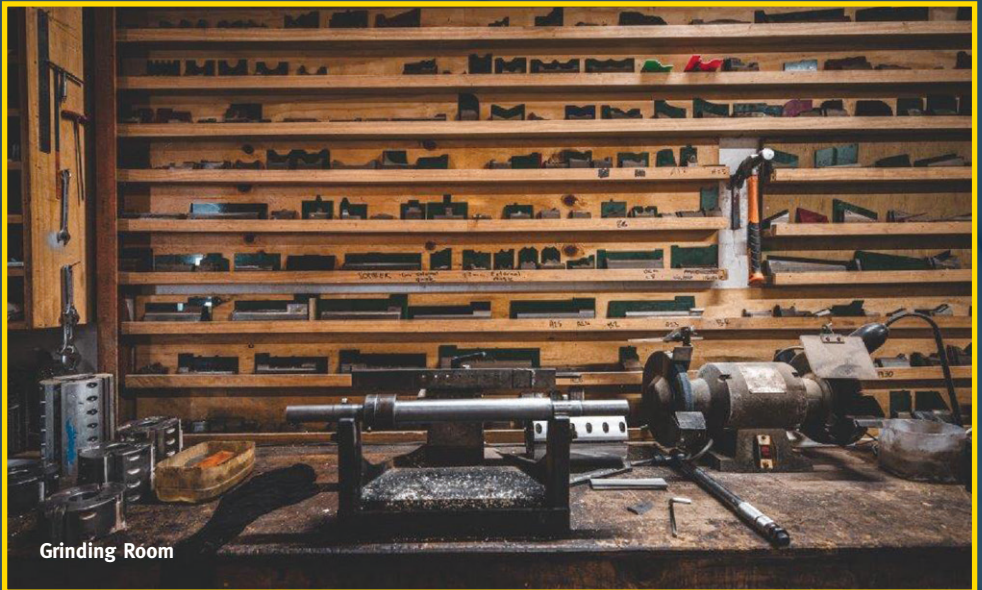

Our new Profiling Machine

We hold a very extensive range of timber products, most of which are located in our rack system of 350+ pockets. We hold the bulk storage of these on site also.

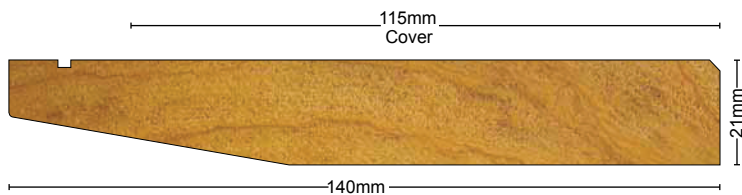

Our close relationships with our New Zealand wide timber supplier base enables us to quickly source your requirements whether they are standard or unique.
